

The Education Ministry has announced that the deadline for submitting Grade 06 applications following the re-survey of the Grade 05 Scholarship Examination results has been extended due to the current disaster situation.

According to the Ministry, principals began accepting applications from students whose scholarship results had changed and uploading them to the online system from 26 November 2025. Although the online submission facility was initially scheduled to close on 5 December 2025, the deadline has now been extended to 12 December 2025.

The Ministry also clarified that the process of submitting first appeals for Grade 06 admissions for 2026 has not yet begun. It dismissed social media posts claiming that appeals are already being accepted as false information.

Officials said that first-round admissions for Grade 06 (2026) will take place in January 2026. Only after these admissions are completed will online appeals be opened to fill any remaining vacancies.
